

KAESLER

Vineyards

Kaesler Home Block, Barossa Valley

Surrounding the winery is 28 hectares of vineyards. Soils are sandy clay loam, which in layman's terms means we have sandy loam top soil for about 25 cm and then it goes into a thick potter's clay layer for the next 30-40 cm. From there it is clay with small amounts of limestone dispersed throughout. Moisture is retained well in these soils, which is ideal for our hot, dry weather.
